Hickory / Reclaimed Patina

ORGANIC ~ ELEMENTAL ~ AUTHENTIC

Reclaimed Patina is an all-natural finish technique that accelerates wood's aging process to give you the look of wood that's been weathered by the elements. Each wood reacts to the Patina finish process in a unique way, resulting in a completely different look based on the wood species selected. Patina's versatility lends itself to a variety of styles such as rustic barn, casual beach, and deconstructed urban. It pairs beautifully with our Opaque finishes.
